A Weekend in Space!

By Markus

One Friday me and my friends and my mum went to space. It was Tuesday when we got there. I saw aliens. I tipped green stuff everywhere. On Wednesday I went for a walk when I found Neil Armstrong's spaceship. I went back and we went home.
A Weekend in Space!

By [Name]

On Wednesday, I went to space with my dad and my friends, Mia, Crystal, Claudia, Temetta, Mad, Charly, Brittany, Breeana, and Nathan.

When I went to space, I had a fun time. Me and Breeana drove the pink and red shiny rocket.

Then we stopped at the moon for lunch. We had bacon and eggs, but Brittany does not like eggs so I had her eggs and she had my bacon.
A Weekend in Space!

By Sheree

On the way back to earth I spotted an alien. So I tried to chalk it, but it was too fast for me.

I went back to school the next day and I told the kids about my adventure to space. They laughed and cheered.
Two and a half hours later, Chontelle and her mum said, "Look, it's the moon." Then I said, "We still have 5 minutes to go." So we wizzed off to the bright white moon.

Five minutes later, the rocket landed. Noviah and Chontelle ran out. Then, their Mums did too. I took the flag that said our on it to leave it on the moon. We then finally went for a moon walk.
A Weekend in Space!

By Crystal

Last weekend we went to space. Chantelle, Nariah, their mums and myself went to space. Nariah was screaming her head off! Our rocket was bright green and we had a passcode our passcode was GG.

In the morning Nariah's mums saw some aliens outside of the rocket and Nariah opened the door. The green slimmy aliens attacked Nariah's mum. Luckily we had first aid.
A Weekend in Space!

By Claudia

Last weekend me, Narah, Chontelle and Madi and Holly went to space in a red rocket. We went to space at 1 o'clock in the morning. When we got to space, Narah was screaming her head off when she saw the aliens.

A few hours later we were out of the rocket. Narah wouldn't get out of the red rocket. So Chontelle had to pull out Narah by her feet. Then Chontelle got scared and Chontelle didn't get out of the red rocket.

An hour later Madi got scared! Mum had to pull them all out!
A Weekend in Space!

By Levi

Last weekend I went to space with my Mum and my Dad at 2:00 am in my big red rocket named Speedo.

On Sunday I found a flag with a big star on it, on the back it said Captain Red. There was a jelly goo on the front of it. I put the goo but it bit me on the finger.

On Monday it was raining, when I went out I slipped over and my boots where all muddy. I had to take them off. Just then I heard a sound! It was in a moon beam. I looked and a little foofoo came out.
A Weekend in Space!

By Levi

On Tuesday, I stayed inside because there was an attack of aliens. They all had ray guns. I watched at the window as our rocket was about to fall over! All the aliens were nearly dead.

On Wednesday, I went to a shop on the moon. They only had cheese. So, I had to get cheese because I was so hungry, could of eaten a foo foo!
A Weekend in Space!

By Samantha

Last weekend I went to space with Mum, Dad, Shaun, Lee, Dimiti and Gary in our purple fast space ship.

In the morning we saw aliens and Mum ran to the space ship. She told dad to get Shaun, Lee and they got in and took off.

Before lunch I went to ride the space pony. It came to the river, the pony had a drink and then we went back.
At eight o'clock I went for a walk. And then I met an alien. My mum got up me, so I had to put it out side.
A Weekend in Space!

By Billy

Last weekend we went to space and mum was scared.

There was alien bulls and alien cows. Mum got charged by an alien bull. She jumped to escape the bull.

The next day we went home but became queen of the alien.
1. Write the time shown on these clocks.

(a) 11:00  (b) 11:00  (c) 12:00  (d) 10:00  (e) 11:00

(f) 1:30  (g) 11:30  (h) 12:30  (i) 11:30  (j) 11:30

Three o'clock  Ten o'clock  One o'clock  Five o'clock  Half past nine

Half past five  Nine o'clock  Half past four  12 o'clock  Half past 11

2. Draw the time on these clocks.

(a) 10:00  (b) 11:00  (c) 9:00  (d) 8:00  (e) 7:00

(f) 2:00  (g) 11:00  (h) Half past 9  (i) 6:00  (j) Half past 7

2 o'clock  11 o'clock  Half past 9  6 o'clock  Half past 7

10 o'clock  Half past 12  Half past 8  1 o'clock  Half past 3

What happens at about 9 o'clock in the morning ________?

and about half past 3 in the afternoon ________?
Numbers to 100

Complete each numeral expander and fill in the boxes.

a. 2 3
twenty-three

Which of these do you think is the better graph? B
Why do you think so?

Because on the other one a long tadpole and bigger things /

During the year these children were given stickers.

Alana

Deepak

Brendon

a. How many stickers was Alana given?
   - 11

b. Who was given the least?
   - Alana

c. How many stickers were given altogether?
   - 38

Use Question 1 to finish this graph.

Colour one box for each creature.

tadpoles  frogs  fish
1. How many toys? 8
   a. 8 - 3 = 5
   b. 8 - 6 = 2
   c. 8 - 4 = 4
   d. 8 - 7 = 1
   e. 8 - 2 = 6
   f. 8 - 5 = 3

2. Colour to match. Use counters.

3. a. 5 birds.
   3 fly away.
   How many left? 2

   b. 9 kangaroos.
   3 hop away.
   How many left? 6

   c. 8 puppies.
   5 get sold.
   How many left? 3

   d. 7 bugs.
   4 get eaten.
   How many left? 3

Swimming club events

Task: Answer these questions about events at the swimming club.

1. Each child in a swimming club was asked to name their favourite event. Can you read the results on the graph?

   - a. What is the title of this graph?
   - b. What is the favourite event?
   - c. What is the least favourite event?
   - d. How many children like freestyle?
   - e. How many children like backstroke?
   - f. What is the difference between the number of children who like freestyle and the number who like butterfly?
   - g. How many children are in the swimming club altogether?

2. Write 2 more questions that could be asked about the “Favourite Events” graph.
   - a. 
   - b. 

3. Five children were asked to dog paddle as far as they could in the pool. The distances they swam are recorded below. Use the data given to make a column graph.

   - a. Name your graph.
   - b. Add all the information it needs.
   - c. Shade the columns.

   Lisa  5 metres
   Troy  7 metres
   Robbie 4 metres
   Sally 9 metres
   Sam  8 metres
